

Locality Community Engagement Project on Spencers' Wood Community Facilities: Stakeholder Questionnaire

Name:

Role:

Preamble

The purpose of this questionnaire is to get your views on the existing community assets in and around Spencer's Wood, and where there are gaps that could be addressed in future. It is part of a piece of research that Locality is delivering on behalf of Shinfield Parish Council. The parish council is open-minded about what infrastructure might be needed to meet the needs of current and future residents in Spencer's Wood. Locality will be attributing views to individuals, or reporting back on what particular people have said – so feel free to be open.

About you

1. Can you tell us a bit more about your role in the community and if you are part of an organisation?
2. How involved have you been so far in discussions with the Parish Council about community provision in Spencer's Wood?

Your asset

3. What kind of community service or activity do you (or your organisation) deliver?
4. What is the general level of demand / utilisation rate? Is the facility constantly being used? Do you struggle to meet demand?
5. (If applicable) How do you deliver the service? Volunteers or paid staff?
6. (If applicable) What investment do you think is needed in your building / infrastructure?
7. (If applicable) How accessible is it, both in terms of transport links and physical accessibility e.g. to people who use wheelchairs?

Wider provision and need

8. Thinking about Spencer's Wood as a whole, what kind of gaps do you think there are in terms of community provision?
9. And how will that be affected by the arrival of new residents?
10. What kind of investment or development would meet that need?
11. Is there anything else you would like to raise?

Next steps

A public consultation event is taking place at Caf' Active on 23rd May. We will then finalise our findings.

Thank you very much for your time
