- Solar farm would be 100% privately owned

23/PC/23 Public Questions

23.1 Land adjacent to Bramble Cottage

A member of the public expressed his concerns regarding the owner of a property moving the boundary in 2020 by approximately 3m onto highways land and asked the council any assistance it may be able to offer. The Chairman reiterated that as a Council, we had limited powers and could only respond in relation to the breach of the Tree Protection Order (TPO) on the oak tree. The resident explained that he did not have any objection to the building in principle, it was the fact that highways land had been claimed, the TPO breached and the restricted access to his land and sight lines. Wokingham Borough Council (WBC) had responded that the Planning Officer was aware of the issues. Members suggested that as the SPC Neighbourhood Plan was against losing trees in the parish and the TPO had been breached they could respond accordingly.

ACTION – Clerk to write to WBC regarding the breach of a TPO

20:02 Cllr Clarke and 2 members of the public left the meeting

23/PC/24 Apologies and declarations of Members' Interest

- 24.1 Apologies had been received from Cllrs D Lias

ACTION – Clerk to ask Cllr Jones if he wished to remain on the Committee

- 24.2 There were no declarations of members' interests.

23/PC/25 Minutes of the Previous Meeting

- 25.1 The minutes of the committee meeting of 9th February 2023 were approved as a correct record and signed as such by Cllr Peer.

Proposed: Cllr P Jahromi
Seconded: Cllr P Emmet
Approved: Unanimously

25.2 **Actions and Matters Arising**

- 23/PC/11.2 Clerk to arrange a meeting with Lindsay Ferris regarding WBC's present stance on building within the DEPZ

The Clerk had been unable to arrange a meeting but has been in correspondence with Cllr Ferris who has provided the following update

"AWE have expressed to us that they have strong concerns regarding the decision and are considering how to proceed with regards to this decision as well as how to engage in potential future planning applications. Following a planning appeal, aggrieved parties have 6 weeks to submit court papers if they wish to challenge the decision. AWE will be taking their decision shortly, with the 6-week period ending on Monday, 13 March. If papers are served, we will be informed by the court.

We will provide you with more information once we know more."

ACTION – Clerk and Chairman to send a formal letter to WBC, AWE and West Berkshire Council and Clerk to circulate a copy of the letter to members of the committee

- 23/PC/7.2 Clerk to enquire from WBC regarding the detailed locations and values of where monies have been spent

The Clerk was slowly trying to piece together the detail and has asked WBC for additional information to ease the process. He was also seeking clarification on the information provided that £63.1m was spent in the parish on S106 projects against £35.2m received. It would appear that the largest item of spend was on the Eastern Relief Road.

The process is being delayed by WBC treating this as a Freedom of Information request rather than an officer to officer discussion.

ACTION – Clerk to report back once the information has been received from WBC

08:13 Member of public left the meeting

- 23/PC/7.3c Clerk to follow up on the issue of transferring ownership of street lamps

The Clerk had been in discussion with Martin Heath but he had since left WBC. He had now received a response from Jay Bailey who is part of the street lighting team.

The first part of the response was a reminder of an email issued by Chris Easton a couple of months ago:

“We have undertaken an assessment and have determined that from the 688 columns identified within the Towns and Parishes, only 494 could be potentially considered for adoption in future. 194 of the 688 columns have been identified as being on unadopted roads or on land not owned by the council, and as such would never be possible for any consideration for adoption in future.

The identified 494 columns would create a financial pressure on the Council’s already stretched budgets to a value of approximately £20k per year, and with growing energy prices this value is expected to rise. On this basis, the Council is not in a position to consider any lamp column adoption as it will apply significant pressure year on year to already stretched budgets.”

The Clerk explained that SPC were not asking WBC to take over street lamps but were enquiring about swapping on an equitable basis as we felt it was more appropriate for WBC to maintain the lights on Hyde End Road. The response to that was:

“If we were to swap any then the ones we (WBC) could give to them would have to meet a “Footway Lighting” standard in accordance with Highways Act otherwise the Parish Council in theory should not be looking after them. I suspect we would have difficulty in finding them sufficient lights from our stock in Shinfield that would fall within this category.”

Members identified that the distance between the streetlights was not correct for a ‘B’ classified road and WBC should be responsible for this category of road. No recent improvements had been made to the streetlighting in recent years.

ACTION – Clerk to seek clear advice from John Russell, Motion

23/PC/8.1 Clerk to chase Mr Karim, WBC for additional information

The Clerk advised that the following response had been received:

“As you may be aware, Martin Heath is no longer with WBC, I am unable to advise on the way forward regarding chicanes. Once I get an update, I will let you know.

With regards to alternative to chicanes, the first question is what are our objectives and what are we trying to achieve. We need to define a problem and consider a solution dependent on the problem, this is why it is difficult to come up with an alternative.

With regards to speed cameras, the criteria was that the site must have at least four Killed or Serious Injury (KSI) accidents. If a speed camera is installed without a valid reason, it may be seen as a money making scheme. Also, we would need TVP (Thames Valley Police) to support it."

ACTION – Clerk to discuss with Paul Fishwick

23/PC/9.2 Clerk to send a letter to BCllr Ferris regarding an article in Wokingham Today

It was agreed that this matter had been overtaken by other more topical issues to be discussed with BCllr Ferris.

WBC S106 and CIL Funds

Attached is a summary of S106 and CIL funding received by Wokingham Borough Council in respect of developments within Shinfield Parish.

Having met with the officers at WBC responsible for this topic they have been able to clarify each of the developments including on the list (previously they had provided on the application number). They have also clarified that the figures are split into two columns for S106. The first is S106 actually expended to date while the second column is the balance of the S106 yet to be spent. Thus this report shows a total of £98.3million having been raised from S106 in the parish of which £63.1million has been spent with a further £35.2million to be spent.

Please note that the funding does not have to be spent on projects within the boundaries of the parish. For example, expenditure on Bohunt school or Affordable housing (Gorse Ride in Finchampstead will have 180+ affordable homes).

Also shown as a separate column is WBC CIL receipts.

Solar Farm - Greentech – Community Grant

In order to apply for a community grant from Greentech, the solar company would enter into a deed or community trust with the parish council to the effect that when the solar farm is commissioned, annual inflation indexed payments will be made based on per MW of installed capacity. The annual payment would be made to the council for use in fulfilling its community duties (including, for example, topping up the precept, helping to fund an annual local event, etc)

In order to ensure that everything is kept lawful and outside the planning process, the parish council needs to confirm that:-

1. no one on the parish council is or was involved on the Wokingham Borough Council planning committee, or a planning officer involved with determining the application
2. it would provide a brief annual report to the solar company on how the funds were disbursed
3. disbursement of funds is approved at a council meeting
