To Shinfield Parish Clerk

I am writing to you in reference to the development of Shinfield Parish Hall, [REDACTED] of nearly 8 years.

I am concerned that the new development is considerably larger in both physical size and capacity than the previous facility and will also be used for more regular events.

My concern is that with larger and perhaps more frequent events, this will bring increased disruption to my home life and perhaps an increased security risk.

Currently there are trees and low fences providing the boundary between the parish hall and my property. These require ongoing maintenance and do not provide an adequate barrier from a noise and security perspective.

I would ask if there are any plans or the possibility to have a suitable noise reducing wall/barrier which will also enhance the security of the boundary.

Yours sincerely
